Keynotes

Mitch Holthus is the voice of the Kansas City Chiefs and is the longest tenured and most decorated play-by-play “voice” in franchise history. Holthus is also the host of the Hy-Vee Chiefs Insider television show and the Chiefs Rewind post game show featured on several digital platforms. Power From Unexpected Sources

This presentation explores the “secret sauce” of the unprecedented 11 years of winning by the Kansas City Chiefs. The Chiefs have made NFL history and shattered NFL and team records with consistent winning in an ultra-competitive environment. The Chiefs have done so in the fifth smallest market in the NFL. The strategies that have been employed to survive “flashpoints” and maintain a winning culture will be examined in detail. It is a practical “deep dive” that resonates with any company or association. Even if you’re not a football fan or sports fan, you will see practical approaches that reveal the energy and power that comes from sources that are always available but rarely resourced.

Ty Bennett

With a natural ability to engage and empower others, Ty Bennett draws on his experience in the trenches to share real and tangible techniques about the principles of leadership that continue to create his success. Ty Bennett is the Owner & CEO of the largest Ninja Warrior Gym in the world and it’s not stopping there - soon he will have three Ninja Warrior Gyms to add to his portfolio. An active CEO and serial entrepreneur, he has built three multi-million dollar businesses in three different industries. Ty and his brother built a direct sales business to over \$20 million in annual revenues, while in their 20’s, and developed a system and organization that would help over 500 leaders fine-tune their sales and leadership skills in over 37 countries. He was featured as one of the Top 40 Under 40 and dubbed one of the 10 Coolest Entrepreneurs in Utah. Ty has founded Leadership Inc., a training company with a mission to empower individuals and organizations to challenge their status quo, cultivate exceptional relationships, and compete in extraordinary ways. He’s changing lives – one leader at a time.

Partnership is the New Leadership

Over the last five years a survey of more than 5,000 leaders asked one question...what do you want from your people? The answer was consistently...commitment. What builds commitment is the leader’s approach to building relationships, providing value, creating buy-in and communicating with influence. Using case studies of leaders and organizations whose culture and growth is built through partnership-based leadership, Ty Bennett’s talks share proven strategies and techniques to increase the commitment of your people.
